Teaching a Flipped Classroom

Take part in an education revolution that turns the traditional classroom paradigm on its head.

**Part 1** of this workshop is more than just an introduction, it will cover how flipped classes differ from traditional classes, the benefits of flipping, how to avoid common mistakes, and practical tips for getting started.

**Part 2** will utilize the skills learned in Part 1 and introduce a guided hands-on demo of technology that can aid instructors in developing and sharing their own flipped content.
