

Video Lecture Capture System

Now available to create, view, and stream content

What is Panopto? Developed at Carnegie Mellon University, Panopto is a lecture capture and video management system. Offering standalone and Canvas integrations, Panopto is available for HSU users to create, view, and stream content in our searchable database. Optimized for learning and accessibility, Panopto's internal capabilities will add value to your courses.

Use Panopto to connect with your students in substantive ways...
